Subject index

Absolute saturation coverages
Evaluation of absolute saturation coverages of carbon monoxide on ordered low-index platinum and rhodium electrodes (Weaver et al.) 247
Acid electrolytes
Polarographic studies of 2,2′-biquinoxalyl and 2,2-bipyrazyl in acid electrolytes and *n*,*n*-dimethyl formamide (Baranowska, Baranowski) 327
Acid media
Electrochemical behaviour of CO layers formed by solution dosing at open circuit on Pt(111). Voltammetric determination of CO coverages at full hydrogen adsorption blocking in various acid media (Orts et al.) 261
Adatom monolayer
Effect of Pb, Cd and Tl adatoms on the reduction process of N_2O on polyoriented Pt electrodes (Ritzoulis) 209
Adsorption
An electrochemical quartz crystal microbalance study of the adsorption of 4,4′-bipyridyl at gold electrodes (Wilde, Ding) 279
Adsorption of anions on ultra-thin metal deposits on single crystal electrodes. Part 1. Voltammetric and radiochemical study of bisulphate adsorption on Pt(111) electrodes containing cadmium adatoms (Varga et al.) 291
Aromatic esters
Electrolytic cleavage of acyclic and cyclic aromatic esters. Case studies of the reductions of benzyl benzoate and phthalide (Vincent, Peters) 121
Azines
Polarographic studies of 2,2′-biquinoxalyl and 2,2-bipyrazyl in acid electrolytes and *n*,*n*-dimethyl formamide (Baranowska, Baranowski) 327
Benzene electropolymerization
Electropolymerization of benzene in a two-phase benzene/acid system: comparative study in strong proton acid and superacid media (Goldenberg et al.) 173
Benzyl benzoate reduction
Electrolytic cleavage of acyclic and cyclic aromatic esters. Case studies of the reductions of benzyl benzoate and phthalide (Vincent, Peters) 121
Bipyridine
Electrocatalytic hydrogenation of organic compounds on carbon electrodes modified by poly(pyrrole- bis[2,2′-bipyridyl] palladium(II) complex) films (Deronzier et al.) 147
An electrochemical quartz crystal microbalance study of the adsorption of 4,4′-bipyridyl at gold electrodes (Wilde, Ding) 279

Cadmium
Adsorption of anions on ultra-thin metal deposits on single crystal electrodes. Part 1. Voltammetric and radiochemical study of bisulphate adsorption on Pt(111) electrodes containing cadmium adatoms (Varga et al.) 291
Compositional analysis of electrosynthesized semiconductor thin films by electrochemical quartz crystal microgravimetry: application to the Cd + Se system (Wei et al.) 331
Carbon electrodes
Electrocatalytic hydrogenation of organic compounds on carbon electrodes modified by poly(pyrrole- bis[2,2′-bipyridyl] palladium(II) complex) films (Deronzier et al.) 147
Carbon monoxide
Evaluation of absolute saturation coverages of carbon monoxide on ordered low-index

platinum and rhodium electrodes (Weaver et al.) 247
Cholesterol
Studies of the indirect electrochemical oxidation of cholesterol (Wu et al.) 321
CO layer oxidation
Electrochemical behaviour of CO layers formed by solution dosing at open circuit on Pt(111). Voltammetric determination of CO coverages at full hydrogen adsorption blocking in various acid media (Orts et al.) 261
Current oscillations
The p-Si/fluoride interface in the anodic region: damped and/or sustained oscillations (Chazalviel et al.) 343

Dibromobiphenyl
Undoped polyparaphenylene films obtained by electro- reduction of dibromobiphenyl. Investigations of nucleation and growth onto indium tin oxide electrodes (Froyer et al.) 159
Dimers
Polarographic studies of 2,2′-biquinoxalyl and 2,2-bipyrazyl in acid electrolytes and *n*,*n*-dimethyl formamide (Baranowska, Baranowski) 327

ECE mechanism
Analysis of the faradaic admittance for an ECE mechanism in the case of non-Randles behaviour with frequency and its application to nitromethane reduction (Prieto et al.) 1
Electrochemical oscillations
Forced electrochemical oscillations of iron in sulphuric acid solutions at the transition between active and passive states (Pagitsas et al.) 93
Electrochemical oxidation
Studies of the indirect electrochemical oxidation of cholesterol (Wu et al.) 321
Electrodeposited platinum electrodes
Adsorption and underpotential deposition of lead at electrodeposited platinum electrodes (Wilde, Zhang) 307
Electrolytic cleavage
Electrolytic cleavage of acyclic and cyclic aromatic esters. Case studies of the reductions of benzyl benzoate and phthalide (Vincent, Peters) 121
Electron transfer
Correlations between solvent polarity scales and electron transfer kinetics and an application to micellar media (Abbott et al.) 31
Direct electron transfer at horseradish peroxidase–colloidal gold modified electrodes (Zhao et al.) 109
Excess microwave reflectivity measurement
Light-induced oscillating reactions of silicon in ammonium fluoride solutions. Part 1. Simultaneous photocurrent and excess microwave reflectivity measurements (Lewerenz, Schlichthörl) 85

Faradaic admittance
Analysis of the faradaic admittance for an ECE mechanism in the case of non-Randles behaviour with frequency and its application to nitromethane reduction (Prieto et al.) 1
Fluoride media
The p-Si/fluoride interface in the anodic region: damped and/or sustained oscillations (Chazalviel et al.) 343

Gold electrodes
An electrochemical quartz crystal microbalance study of the adsorption of 4,4′-bipyridyl at gold electrodes (Wilde, Ding) 279

High-pressure voltammetry
The measurement of molar volume changes of redox reactions using high-pressure voltammetry (Sachinidis et al.) 219
H_2O_2 reduction
Direct electron transfer at horseradish peroxidase–colloidal gold modified electrodes (Zhao et al.) 109
Horseradish peroxidase
Direct electron transfer at horseradish peroxidase–colloidal gold modified electrodes (Zhao et al.) 109
Hydrogen adsorption blocking
Electrochemical behaviour of CO layers formed by solution dosing at open circuit on Pt(111). Voltammetric determination of CO coverages at full hydrogen adsorption blocking in various acid media (Orts et al.) 261
Hydrogen ions
New neutral carrier-based H^+ selective membrane electrodes (Cosofret et al.) 137

Impedance method
Kinetics of the transfer of monovalent anions across the nitrobenzene–water interface (Kakiuchi et al.) 63

Indium tin
Undoped polyparaphenylene films obtained by electro- reduction of dibromobiphenyl. Investigations of nucleation and growth onto indium tin oxide electrodes (Froyer et al.) 159
Interfaces
Kinetics of the transfer of monovalent anions across the nitrobenzene–water interface (Kakiuchi et al.) 63
Iron
Forced electrochemical oscillations of iron in sulphuric acid solutions at the transition between active and passive states (Pagitsas et al.) 93

Lead
Adsorption and underpotential deposition of lead at electrodeposited platinum electrodes (Wilde, Zhang) 307
Light-induced oscillatory behaviour
Light-induced oscillating reactions of silicon in ammonium fluoride solutions. Part 1. Simultaneous photocurrent and excess microwave reflectivity measurements (Lewerenz, Schlichthörl) 85
Low index electrodes
Evaluation of absolute saturation coverages of carbon monoxide on ordered low-index platinum and rhodium electrodes (Weaver et al.) 247

Membrane electrodes
New neutral carrier-based H^+ selective membrane electrodes (Cosofret et al.) 137
Methanol
The influence of ruthenium adatoms on the oxidation of chemisorbed species of methanol on a platinum electrode by a radiochemical method (Franaszczuk, Sobkowski) 235
Micellar media
Correlations between solvent polarity scales and electron transfer kinetics and an application to micellar media (Abbott et al.) 31
Modified electrode
A C_{60} modified electrode: electrochemical formation of tetra-butylammonium salts of C_{60} anions (Compton et al.) 337
Molar volume changes
The measurement of molar volume changes of redox reactions using high-pressure voltammetry (Sachinidis et al.) 219
Molecular dynamics
A molecular dynamics study of water monolayers on charged platinum walls (Nagy, Heinzinger) 25
Monolayers
Statistical mechanics of self-assembled monolayers (Aoki) 73
Monovalent anions
Kinetics of the transfer of monovalent anions across the nitrobenzene–water interface (Kakiuchi et al.) 63

Nitrobenzene
Kinetics of the transfer of monovalent anions across the nitrobenzene–water interface (Kakiuchi et al.) 63
Nitromethane reduction
Analysis of the faradaic admittance for an ECE mechanism in the case of non-Randles behaviour with frequency and its application to nitromethane reduction (Prieto et al.) 1
Nitrones
Spin marking in situ in molecular electrochemistry. II. Is the tetraphenylphosphonium cation a source of a phenyl radical when reduced in the presence of spin markers such as nitrones? (Chaquiq El Badre et al.) 185
N_2O reduction
Effect of Pb, Cd and Tl adatoms on the reduction process of N_2O on polyoriented Pt electrodes (Ritzoulis) 209
Nucleation
Undoped polyparaphenylene films obtained by electro- reduction of dibromobiphenyl. Investigations of nucleation and growth onto indium tin oxide electrodes (Froyer et al.) 159

Organic compounds
Electrocatalytic hydrogenation of organic compounds on carbon electrodes modified by poly(pyrrole- bis[2,2′-bipyridyl] palladium(II) complex) films (Deronzier et al.) 147
Organic dianions
Organic dianions as reducing species. Part 2. Cathodically produced organic dianions concomitantly acting as reducing species and a source of nucleophiles: the mixed reduction of 1,4-diacetylbenzene and aromatic halides (Simonet, Dupuy) 201

Oxidation
Studies of the indirect electrochemical oxidation of cholesterol (Wu et al.) 321

Palladium
Electrocatalytic hydrogenation of organic compounds on carbon electrodes modified by poly(pyrrole- bis[2,2′-bipyridyl] palladium(II) complex) films (Deronzier et al.) 147

Phenyl radicals
Spin marking in situ in molecular electrochemistry. II. Is the tetraphenylphosphonium cation a source of a phenyl radical when reduced in the presence of spin markers such as nitrones? (Chaquiq El Badre et al.) 185

Photocurrent measurement
Light-induced oscillating reactions of silicon in ammonium fluoride solutions. Part 1. Simultaneous photocurrent and excess microwave reflectivity measurements (Lewerenz, Schlichthörl) 85

Photo-induced charge transfer
Computer analysis of photo-induced charge transfer at the ITIES and potential of the optimization technique (Kotov, Kuzmin) 47

Phthalide reduction
Electrolytic cleavage of acyclic and cyclic aromatic esters. Case studies of the reductions of benzyl benzoate and phthalide (Vincent, Peters) 121

Platinum
A molecular dynamics study of water monolayers on charged platinum walls (Nagy, Heinzinger) 25
Adsorption of anions on ultra-thin metal deposits on single crystal electrodes. Part 1. Voltammetric and radiochemical study of bisulphate adsorption on Pt(111) electrodes containing cadmium adatoms (Varga et al.) 291

Platinum electrode
The influence of ruthenium adatoms on the oxidation of chemisorbed species of methanol on a platinum electrode by a radiochemical method (Franaszczuk, Sobkowski) 235

Polycrystalline Pt electrode
Effect of Pb, Cd and Tl adatoms on the reduction process of N_2O on polyoriented Pt electrodes (Ritzoulis) 209

Polyparaphenylene
Undoped polyparaphenylene films obtained by electro- reduction of dibromobiphenyl. Investigations of nucleation and growth onto indium tin oxide electrodes (Froyer et al.) 159

Pyrrole
Electrocatalytic hydrogenation of organic compounds on carbon electrodes modified by poly(pyrrole- bis[2,2′-bipyridyl] palladium(II) complex) films (Deronzier et al.) 147

Quartz crystal
An electrochemical quartz crystal microbalance study of the adsorption of 4,4′-bipyridyl at gold electrodes (Wilde, Ding) 279

Radiochemistry
Adsorption of anions on ultra-thin metal deposits on single crystal electrodes. Part 1. Voltammetric and radiochemical study of bisulphate adsorption on Pt(111) electrodes containing cadmium adatoms (Varga et al.) 291

Redox reactions
The measurement of molar volume changes of redox reactions using high-pressure voltammetry (Sachinidis et al.) 219

Reducing species
Organic dianions as reducing species. Part 2. Cathodically produced organic dianions concomitantly acting as reducing species and a source of nucleophiles: the mixed reduction of 1,4-diacetylbenzene and aromatic halides (Simonet, Dupuy) 201

Ruthenium adatoms
The influence of ruthenium adatoms on the oxidation of chemisorbed species of methanol on a platinum electrode by a radiochemical method (Franaszczuk, Sobkowski) 235

Selenium
Compositional analysis of electrosynthesized semiconductor thin films by electrochemical quartz crystal microgravimetry: application to the Cd + Se system (Wei et al.) 331

Self-assembled monolayers
Statistical mechanics of self-assembled monolayers (Aoki) 73

Semiconductor thin films
Compositional analysis of electrosynthesized semiconductor thin films by electrochemical quartz crystal microgravimetry: application to the Cd + Se system (Wei et al.) 331
Silicon
Light-induced oscillating reactions of silicon in ammonium fluoride solutions. Part 1. Simultaneous photocurrent and excess microwave reflectivity measurements (Lewerenz, Schlichthörl) 85
The p-Si/fluoride interface in the anodic region: damped and/or sustained oscillations (Chazalviel et al.) 343
Single crystal electrode
Adsorption of anions on ultra-thin metal deposits on single crystal electrodes. Part 1. Voltammetric and radiochemical study of bisulphate adsorption on Pt(111) electrodes containing cadmium adatoms (Varga et al.) 291
Solvent polarity
Correlations between solvent polarity scales and electron transfer kinetics and an application to micellar media (Abbott et al.) 31
Spin marking
Spin marking in situ in molecular electrochemistry. II. Is the tetraphenylphosphonium cation a source of a phenyl radical when reduced in the presence of spin markers such as nitrones? (Chaquiq El Badre et al.) 185
Statistical mechanics
Statistical mechanics of self-assembled monolayers (Aoki) 73
Sulphuric acid
Forced electrochemical oscillations of iron in sulphuric acid solutions at the transition between active and passive states (Pagitsas et al.) 93
Superacid media
Electropolymerization of benzene in a two-phase benzene/acid system: comparative study in strong proton acid and superacid media (Goldenberg et al.) 173

Tetra-butylammonium salts
A C_{60} modified electrode: electrochemical formation of tetra-butylammonium salts of C_{60} anions (Compton et al.) 337
Tetraphenylphosphonium cations
Spin marking in situ in molecular electrochemistry. II. Is the tetraphenylphosphonium cation a source of a phenyl radical when reduced in the presence of spin markers such as nitrones? (Chaquiq El Badre et al.) 185
Transfer kinetics
Kinetics of the transfer of monovalent anions across the nitrobenzene–water interface (Kakiuchi et al.) 63
Two-phase system
Electropolymerization of benzene in a two-phase benzene/acid system: comparative study in strong proton acid and superacid media (Goldenberg et al.) 173

Underpotential deposition
Adsorption and underpotential deposition of lead at electrodeposited platinum electrodes (Wilde, Zhang) 307

Voltammetry
Adsorption of anions on ultra-thin metal deposits on single crystal electrodes. Part 1. Voltammetric and radiochemical study of bisulphate adsorption on Pt(111) electrodes containing cadmium adatoms (Varga et al.) 291

Water monolayers
A molecular dynamics study of water monolayers on charged platinum walls (Nagy, Heinzinger) 25
